I have worked in the visual arts field my entire career, a career spanning nearly 4 decades. I started my career working for RadioShack National Advertising creating Newspaper, Packaging for all the electronic devices and ended my career there in the Flier and Insert department 12 years later.

RadioShack was the keystone for me. I have been blessed with being able to do the kind of work I love.

Being creative and looking at things at a slightly skewed angle has enabled me to provide for myself and my family. Loyalty and devotion to my craft has made this a life long learning adventure.

Education

University of Utah, Salt lake, UT April 2016 - October 2016

Coding Bootcamp - Javascript Full Stack Web Development

This course was a struggle. The amount of information provided was impossible to digest fully in such a short amount of time. I passed the course and learned a lot, it provided me with insight into the power of the web and the potential for growth. I am continuing my studies into interactivity becoming more familiar with jQuary and HTML5 at home on my own.

University of Utah, 2009 Salt Lake City, UT | Certificate Web Design Tools

Certificate Program

New Horizons Computer Learning Center, 2009 Salt Lake City, UT | Certificate Flash CS4
